

SOA & Integration Services

Industry:

Telecom

Client:

Leading Telecom Service Provider

Location: India

CHALLENGE

The client decided to architect a multi-tenant cloud ecosystem to offer services to their respective clients in the media industry such as production houses, post-production houses, cinemas, and digital signage companies.

SOLUTION

Our team integrated 13 different independent software vendor (ISV) products with a Service-oriented Architecture (SOA). We combined the various user experience design (UX) functionalities (provided by different ISV products) to offer one seamless UX to the end-users. We architected a multi-tenant ecosystem that allows the media companies to purchase the offered services as subscription services.

TECHNOLOGY STACK

IBM WebSphere Portal Server
IBM BPM
IBM WebSphere ESB
LDAP
IBM TAM for e-Business for
SSO Aspera

BENEFITS

- Multi-tenant system.
- Integrated digital signage scheduling and delivery.
- Integrated movie scheduling and delivery for theatres.
- Integrated workflows for production house automation.
